

Kentucky SkyTalk

Dr. Joseph Straley
University of Kentucky

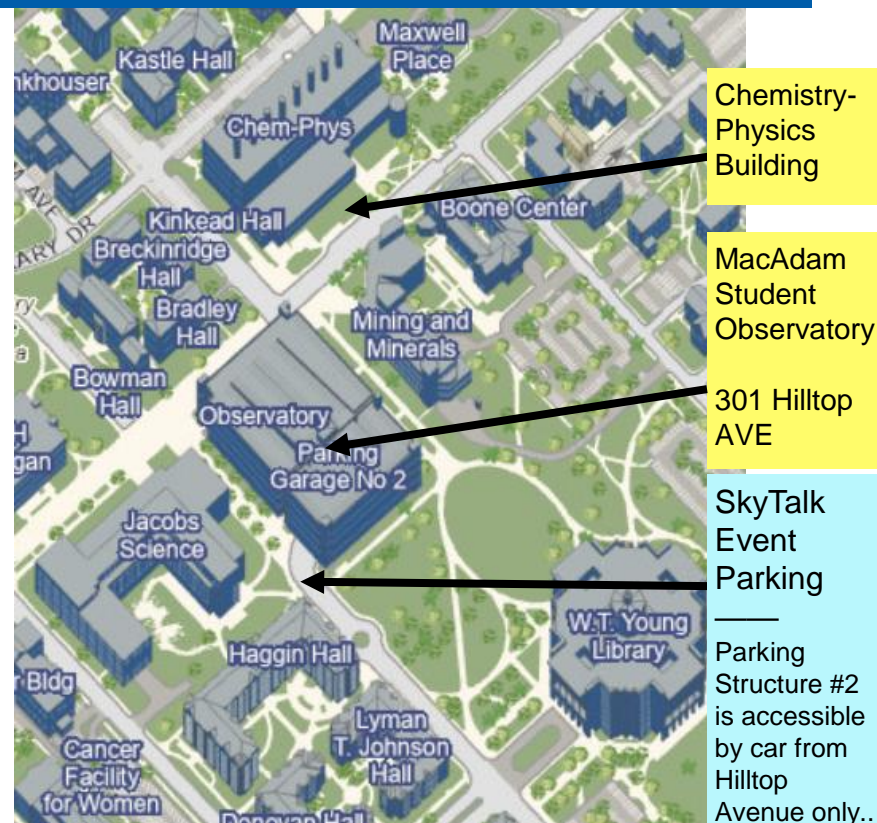

Thursday – July 10, 2025 7:00 PM

Location: Chem-Phys Room 179

Title: Rainbows and Moonbows

Abstract: On days near full moon, there is a "moonbow" at Cumberland Falls. They are rather rare. I'll discuss how optics and astronomy combine to create this spectacle.

How to find the MacAdam Student Observatory

Monthly Meetings

The MSO hosts monthly public-observing sessions, each with a kick-off 50 minute presentation in the Chemistry-Physics Building. The presentations will take place even on cloudy nights. If the sky is clear, the observatory will open after the talk! Can't make the SkyTalk? Then come after!
